

BACK TO CONSISTENCY!

Greetings,

Several months ago while crisscrossing our ministry area counties I made [this](#) selfie video.

Could it be.....

that this “slow down”, “lock down”, “change of pace”, is being used by God to help us get back to some of the BASICS so that we can be more CONSISTENT in fulfilling the Great Commission?

I certainly think so.

I encourage and challenge you to get back to more **consistency** in your own personal walk with the Lord.

1) Spend lots of time alone in the morning reading God’s WORD.... not to find a preaching message....but to be filled and inspired for daily walk and creative daily ministry.

2) Pray like never before.
We need it for many reasons.

3) Take a list of members in your church and go through it every week praying out loud verbally by name for each of them.

4) Take that same list and go down through it checking ✓ off names and families that you need to personally call and check up on. What a great time and opportunity to connect in a way that is greatly needed right now. You might even consider breaking that list up and giving it to several others in the church to help make calls. The more the better these days.

5) Take and spend quality time with your wife (and kids if they’re still at home). Don’t overlook this precious, special time God has given you. Don’t feel guilty for doing so.

6) Refresh. Get out in your yard. May it look like “Yard of the Month” soon. Go ahead, make your own sign and stick it up out front. 😁

7) Stop watching so much of the Newsmaybe you’ve already weaned yourself off of that, GOOD. Know that God is in control and constantly assure your people that he is.

8) If you are still having trouble understanding how to do a “phone conference call” or “ZOOM” computer meeting... Please give me a call and I’ll help walk you through it. It’s easy. It’s all FREE....your people will certainly appreciate it.

9) Be smart. Stay at home. Be an example for the body of Christ.

10) Expect Jesus to return so

We have TIME.

Lots of it right now.

Let’s not waste it.

Let’s make the devil mad.

He would love to see us lackadaisical, losing our drive and passion for personal Spiritual growth and our Church Ministry.
