Greetings,

VALUE FILLED!!!!!!!

DON'T PUT THIS DOWN...
PLEASE READ ON....

ChurchPulseWeekly.com

You need to research this ministry tool. I'm so pleased with this approach of getting information from across the country. I joined the first podcast today then watched the video of the two producers of the project. ...and it is **free!**

It is designed and produced by the **Barna Group**....and you know they are **FIRST CLASS!**

They will be introducing and using what they call:
"Thought Leaders"

We were hearing from others across the country with over 500 participated today.

There will be **panels** from experts each week.

During today's first broadcast, we heard of current **trends** and what to expect in the days ahead.

There is great **VALUE** to this.

Statistical information will be shared to help us all understand what's happening now and to come.

Digital "HOW TO" information and what churches need to do and improve on.

Next Thursdays information will be shared that will really help us focus and gather ideas on "How To make **Easter** strong and productive."

Please register and get involved. Remember.....it is **FREE!**
